DETAILED ACTION

Election/Restrictions

Applicant's election of species I in the reply filed on 3/4/09 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 38 and 42 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species of the invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 3/4/09.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 35-37 and 39-41 are rejected under 35 U.S.C. 102(b) as being anticipated by Seda '619.

The patent to Seda discloses a route planning method and hierarchical routing from a origin location to a destination location that uses different layers of a digital map that are successively used in order to match the objective road as described in the abstract and Figures 1-3 as well as columns 3-6.
